

Steep rise in order intake

Mauves, August 4, 2021 at 6 pm

Heading towards €32 million in recorded sales for 2021

ALTHEORA, the French leader in composite material applications, announces a record level increase in its order intake.

To date, sales orders are now exceeding €9 million (i.e., +9% compared to 2019 order intake levels). For information, this figure should not be considered relevant compared to 2020 order intake, which was severely disrupted by the health crisis.

This boost in orders already lets ALTHEORA forecast an estimated 2021 revenue of around €32M, above roadmap expectations.

It is no surprise that the main drivers of this sales intake continue to be the major sectors that previously demonstrated their participation in Half-year sales: mobility, medical, aeronautics and network, for example.

The success of ALTHEORA's solutions demonstrates that the search for materials with less environmental impact are driving a major evolution in consumption.

UPCOMING EVENTS

The half-year financial statements, to be published on September 23, 2021, are expected to confirm a further improvement in performance.

ALTHEORA

ALTHEORA

smart & sustainable
industrial leader

ALTHEORA is the French leader in composite material applications. Since 1934, the Group has been known for its development of specific tools in construction and public works (switching boxes for electrical, gas, telecommunications, and other applications). The Group also developed expertise and cutting-edge technology in such wide-ranging and exacting sectors as railways, aeronautics, automotive, healthcare, leisure, and urban outdoor furnishings. It also has an innovation laboratory to co-develop new products with its clients that respond to the needs of tomorrow, such as new types of mobility or smart cities.

ALTHEORA offers solutions that are 100% integrated, from R&D on through to production. The Group benefits from the know-how of employees spread across four sites in the Auvergne-Rhône-Alpes region, as well as one site in Romania. It currently supports more than 500 clients outside of France, and in 2020 it won an award for the best innovation in the Design & Furniture category of the JEC Innovation Awards.

The company is listed on Euronext Growth - *ISIN Code: FR0000061244 - ALORA*
